

## Block of the Month-March 2010

Materials needed:

- ❖ 8" block of background fabric---tone-on-tone white or light pastel
- ❖ 5" square of pastel Batik

**Construction:** Trace the pattern onto the wrong side of the Batik. Cut on the line, or if using needle-turn appliqué, trace onto the right side of the Batik and leave a small border around the pattern. Using one of these three methods--invisible machine appliqué, needle-turn appliqué, or hand or machine blanket stitch--attach the egg to the 8" background square. Your egg can lean right, left, or sit upright in the center of the block. If you'd like, you can embellish your egg with beads, trims, ribbons, etc., to give it a more festive look. Voilà, you are finished with the block of the month!
